Dear Parent/Carer,

As is always the case during periods of hot weather, we keep doors and windows open to improve airflow throughout the building and ensure that air conditioning and fans are used in areas that generate more heat. We also make chilled water available to all students through a number of water dispensers located across the site.

While we would normally relax expectations around sweaters and ties during warmer weather, the forecasted temperatures and increased humidity for the remainder of this week mean that these measures may not be sufficient to ensure students remain comfortable throughout the school day. As a result, I have decided to temporarily relax our uniform expectations.

For the rest of this week, students may wear their school PE uniform if they wish. I would be grateful for the support of parents and carers in ensuring that students wear the approved PE uniform only, so that we can maintain a sense of consistency while keeping everyone comfortable. This will also help to ensure that no student feels self-conscious or is judged because of what they are wearing. My staff will brief students today and will emphasise that we are not introducing non-uniform days. Students who arrive at school wearing items that are not part of the approved school uniform may be required to return home and change into the correct attire.

The forecast for next week suggests a return to more typical conditions, with cooler temperatures and some rain expected. Therefore, we anticipate that all students will return to wearing full school uniform from Monday.

Thank you for your continued support.

Yours sincerely
