

Art & Photography Work-

Year 11, 12, 13 Art and Photography students.

Firstly we hope you are all safe and well. As most of you have access to your phone or a camera you may want to document the events in Carlisle/Cumbria. These photos could be added to your coursework or indeed referenced in the coming exams. Look at the fine detail- debris left behind, unusual landscape scenes etc.. Naturally we would not want you to take any risks and hence only take photos if it is safe to do so and consider looking at the changes and impact on our city rather than the people. Collect images and articles too from newspapers. You may also want to record your own feelings and experiences. This has been a devastating and shocking time for the county but the sense of community and feeling of hope is strong. Documenting the events may be very useful for both your selves and your projects.
