

TRINITY SCHOOL CARLISLE

A CHURCH OF ENGLAND ACADEMY

E-SAFETY POLICY

Pastoral Committee

Reviewed: October 2022

Approved by the Pastoral Committee: November 2022

Ratified by the Full Governing Body: December 2022

Next review: October 2023

At the time of printing in November 2022 the following roles were held:

Designated Safeguarding Lead (DSL)	Paul Charnock – Deputy Headteacher
Online Safety Lead	Paul Charnock – Deputy Headteacher
Remote Education Lead	David Samson – Deputy Headteacher
Online Safety / Safeguarding Link Governor	Mrs S Aglionby
PSHE / RSHE lead	Paul Charnock – Deputy Headteacher
Network Manager / other technical support	Sutherland Smith

REVIEW SHEET

Version Number	Version Description	Date of Revision
	Original. Complete rewrite to take into account current national guidance on Online Safety	November 2019
2	Updated in line with Keeping Children Safe in Education 2020. No legal or significant policy changes just updates to link document mentions to the latest versions of them online (not highlighted). Minor policy addition in Section 3 to draw attention to policy or procedure addendums staff and others must be aware of (usually Covid-19 related). Minor policy clarification in Section 9.1 (BYOD procedures) just to specifically reference wearable technologies and the broadcasting of location data (highlighted).	September 2020
3	Updated to include additional information on sharing nude and semi-nude images and online challenges and hoaxes.	March 2021
4	Updated in light of statutory DfE guidance 'Keeping Children Safe in Education' Sept 2021 which newly references schools having an online safety policy and what it should contain, the 4Cs, and the continuing DfE expectation that all schools responsible for the provision of compulsory schooling (including independent schools with pupils funded by the taxpayer i.e. children looked after or children from military families attending boarding schools) will provide remote education and do it safely. Minor updates to appendices to reflect language/KCSiE updates.	September 2021
5	Updated in line with statutory DfE guidance 'Keeping Children Safe in Education' Sept 2022. Changed BYOD into section 9.2 to make it easier to find and reference (no content changes). Significant chunks of the Remote Learning section removed and replaced with links to government guides. Appendices removed and replaced with links to separate documents that are easier to use, update and distribute. Other links all checked as correct.	September 2022

POLICY

1. Background/Rationale

New technologies have become integral to the lives of children and young people in society, both in school and in their lives outside school.

The Internet and other digital and information technologies are powerful tools, which open new opportunities for everyone. Electronic communication helps teachers and pupils learn from each other. These technologies can stimulate discussion, promote creativity, and increase awareness of context to promote effective learning. Children and young people have an entitlement to safe internet access.

The requirement to ensure that children and young people can use online and related communications technologies appropriately and safely is part of the wider duty of care to which all who work in schools are bound. The school Online Safety Policy and procedures will help to ensure safe and appropriate use, and the development and implementation will involve all stakeholders in a child's education from the Headteacher and Governors to the senior leaders and classroom teachers, support staff, parents, carers, members of the community and the pupils themselves.

The use of these exciting and innovative tools in school and at home has been shown to raise educational standards and promote pupil achievement. However, the use of these new technologies can put young people at risk in and outside of school. Some of the dangers they may face include:

- Access to illegal, harmful, or inappropriate images or other content;
- Unauthorised access to/loss of/sharing of personal information;
- The risk of being subject to grooming by those with whom they make contact on the internet;
- The risk of being targeted by extremists in order to promote and encourage radicalisation;
- The risk of being targeted by those involved in child sexual exploitation;
- The sharing/distribution of personal images without an individual's consent or knowledge;
- Being drawn into taking part in unsuitable online challenges and/or hoaxes;
- Inappropriate communication/contact with others, including strangers;
- Cyberbullying (including prejudiced-based and discriminatory bullying);
- Access to unsuitable video/internet games;
- An inability to evaluate the quality, accuracy, and relevance of information on the Internet;
- Plagiarism and copyright infringement;
- Illegal downloading of music or video files;
- The potential for excessive use which may impact on the social and emotional development and learning of the young person.

Many of these risks reflect situations in the off-line world and it is essential that this Online Safety Policy and procedures is used in conjunction with other school Policies including the Overarching Safeguarding Statement, Child Protection, Data Protection and Expectations for Learning Behaviour.

As with all other risks, it is impossible to eliminate online risks completely. It is therefore essential, through good educational provision to build pupils' resilience to the risks to which they may be exposed, so that they have the confidence and skills to face and deal with these risks.

This school must demonstrate that it has provided the necessary safeguards to help ensure that we have done everything that could reasonably be expected of us to manage and reduce these risks. The Online Safety Policy and procedures that follows explains how we intend to do this, while also addressing wider educational issues to help young people (and their families) to be responsible users and stay safe while using the Internet and other communications technologies for educational, personal, and recreational use.

2. Definitions

For the purposes of this document a child, young person, pupil, or student is referred to as a 'child' or a 'pupil' and they are normally under 18 years of age.

Wherever the term 'parent' is used this includes any person with parental authority over the child concerned e.g. carers, legal guardians etc.

Wherever the term 'Headteacher' is used this also refers to any Manager with the equivalent responsibility for children.

3. Associated School Policies and procedures

This Policy should be read in conjunction with the following school Policies/procedures and, where they exist, addendums to those Policies and procedures:

- Overarching Safeguarding Statement
- Child Protection Policy and procedures
- Data Protection Policy
- CCTV & Viewing Procedure
- Health and Safety Policy
- Expectations for Learning Behaviour Policy
- Procedures for Using Pupils Images
- Whistleblowing Policy
- Code of Conduct for School Staff
- Home-School Agreement

Communication/Monitoring/Review of this Policy and procedures

This Policy and procedures will be communicated to staff, pupils, and the wider community by:

- Posting it on the school website and shared staff drive
- Making a paper copy available on request from the school Clerk to the Governors (email clerk@trinity.cumbria.sch.uk)
- Discussing school policy and procedures during induction with new staff and other relevant adults including the staff Acceptable Use Agreement
- Discussing Acceptable Use Agreements with pupils at the start of each year
- Issuing Acceptable Use Agreements to external users of school systems (e.g. Governors) usually on entry to the school
- Holding Acceptable Use Agreements in pupil and personnel files

The Online Safety Policy is also referenced in other school Policies and procedures as outlined above.

The review period for this Policy and procedures is determined by the Governing Body/Proprietors and indicated on the front cover.

4. Scope of the Policy

This Policy and procedures applies to all members of the School community (including staff, pupils, volunteers, parents, visitors, community users) who have access to and are users of our ICT systems, both in and out of school.

The Education and Inspections Act 2006 empowers Headteachers, to such extent as is reasonable, to regulate the behaviour of pupils when they are off the school site and empowers members of staff to impose disciplinary penalties for inappropriate behaviour. This includes incidents of cyberbullying, or other online safety related incidents covered by this Policy and procedures, which may take place out of school, but is linked to membership of the school. The 2011 Education Act increased these powers in relation to the searching for, and of, electronic devices and the deletion of data. In the case of both acts, action can only be taken in relation to issues covered by the published Expectations for Learning Behaviour Policy and procedures.

The school will deal with such incidents within this Policy and procedures and the Expectations for Learning Behaviour Policy and procedures which includes anti-bullying procedures and will, where known, inform parents of incidents of inappropriate online safety behaviour that take place out of school.

PROCEDURES

1. Roles and Responsibilities

The following section outlines the roles and responsibilities for online safety of individuals and groups within the school:

1.1 Governors

The role of the Governors/online safety Governor is to:

- ensure a member of the Governing Body is elected to the role of Online Safety Governor who should then lead on relevant governance requirements below;
- ensure an appropriate senior member of staff from the School Leadership Team (SLT) is appointed to the role of DSL with lead responsibility for safeguarding and child protection (including online safety with the appropriate status, authority, time, funding, training, resources, and support);
- ensure online safety is a running and interrelated theme whilst devising and implementing policies and procedures;
- approve the Online Safety Policy and procedures, reviewing its effectiveness e.g. through Governors or a Governor Sub-committee receiving regular information about online safety incidents and monitoring reports and making use of the UK Council for Internet Safety (UKCIS) guide [Online safety in schools and colleges: Questions from the Governing Board](#);
- ensure that the school follows all current online safety advice to keep both pupils and staff safe;
- support the school in encouraging parents and the wider community to become engaged in online safety activities;
- have regular reviews with the Online Safety Coordinator/Designated Safeguarding Lead (DSL) and incorporate online safety into standing discussions of safeguarding at Governors meetings (including incident logs, change control logs etc.)
- ensure that where the online safety coordinator is not the named DSL or deputy DSL, there is regular review and open communication between these roles and that the DSL's clear overarching responsibility for online safety is not compromised;
- work with the Data Protection Officer (DPO), DSL and Headteacher to ensure a UK GDPR compliant framework for storing data, helping to ensure that child protection is always at the forefront and data protection processes support careful and legal sharing of information;
- check that school is making good use of information and support ([Annex B – Further information](#) which forms part of [Keeping Children Safe in Education](#));
- ensure that all staff undertake regular updated safeguarding training, including online safety training in line with advice from the Local Safeguarding Children's Partnerships (LSCP), and that it is integrated, aligned, and considered as part of the whole school safeguarding approach and wider staff training and curriculum planning;
- ensure that appropriate filters and appropriate monitoring systems are in place, but also consider how 'over-blocking' may lead to unreasonable restrictions on what pupils can be taught in relation to online teaching and safeguarding;
- ensure that the SLT and relevant staff have an awareness and understanding of the provisions in place to manage filtering and monitoring and how to escalate concerns when identified;
- recognise that a one size fits all educational approach may not be appropriate for all children, and a more personalised or contextualised approach for more vulnerable children, victims of abuse and some SEND children might be needed
- ensure pupils are taught how to keep themselves safe, including online as part of providing a broad and balanced curriculum with clear procedures on the use of mobile technology.

1.2 Headteacher

The Headteacher has overall responsibility for online safety provision. The day-to-day responsibility for online safety may be delegated to the Designated Safeguarding Lead (DSL).

The Headteacher will:

- take overall responsibility for data and data security;
- foster a culture of safeguarding where online safety is fully integrated into whole school safeguarding;
- oversee the activities of the DSL and ensure that the DSL responsibilities listed in the section below are being followed and fully supported;
- ensure that Policies and procedures are followed by all staff and other adults working paid or unpaid in the school;
- undertake training in offline and online safety, in accordance with statutory guidance and relevant Local Safeguarding Partnership recommendations;
- liaise with the DSL on all online-safety issues which might arise and receive regular updates on school issues and broader policy and practice information;
- take overall responsibility for data management and information security ensuring the school's provision follows best practice in information handling; work with the DPO, DSL and Governors to ensure a Data Protection Act 2018 (DPA) compliant framework for storing data, but helping to ensure that child protection is always put first, and data-protection processes support careful and legal sharing of information;
- ensure the school implements and makes effective use of appropriate ICT systems and services including school-safe filtering and monitoring, protected email systems and that all technology including cloud systems are implemented according to child-safety first principles;
- be responsible for ensuring that all staff receive suitable training to carry out their child protection and online safety roles;
- understand and make all staff aware of procedures to be followed in the event of a serious online safeguarding incident or allegation against a member of staff or other adult (see [flowchart on dealing with online safety incidents](#));
- ensure suitable risk assessments are undertaken so the curriculum meets needs of pupils, including the risk of children being radicalised;
- ensure that there is an audit system in place to monitor and support staff (e.g. network manager) who carry out internal technical online safety procedures. UKCIS have published an [Online Safety Audit Tool](#) which helps mentors of trainee teachers and newly qualified teachers induct mentees and provide ongoing support, development and monitoring;
- ensure Governors are regularly updated on the nature and effectiveness of the school's arrangements for online safety;
- ensure the school website meets statutory requirements (see KAHSC guidance on statutory and desirable website requirements).

1.3 Designated Safeguarding Lead (DSL)

The DSL may delegate certain online safety duties, but not the day-to-day responsibility; this assertion and all quotes below are taken from [Keeping Children Safe in Education](#).

The Designated Safeguarding Lead:

- take lead responsibility for safeguarding and child protection (including online safety);
- be the first point of contact for any concerns the wider staff and other adults working in the school may have in relation to child protection and online safety harmful behaviour e.g. sharing nude and/or semi-nude images and/or videos/online challenges or hoaxes and refer to the [UKCIS](#) and [DfE guidance](#) on these subjects;
- ensure an effective approach to online safety is in place that empowers the school to protect and educate the whole school community in their use of technology and establish mechanisms to identify, intervene in and escalate any incident where appropriate;
- promote an awareness and commitment to online safety throughout the school community with strong focus on parents, who are often appreciative of school support in this area, but also including 'hard-to-reach' parents;
- liaise with other agencies in line with [Working together to Safeguard Children](#) statutory guidance;
- take day-to-day responsibility for online safety issues and be aware of the potential for serious child protection concerns;
- ensure that online safety education is embedded in line with DfE guidance [Teaching Online Safety in](#)

[schools](#) across the curriculum (e.g. by use of the UKCIS framework 'Education for a Connected World') and beyond, in the wider school community;

- work with the Headteacher, Data Protection Officer, Governors, and the school ICT technical staff to ensure a DPA compliant framework for storing data, helping to ensure that child protection is always at the fore and data protection processes support careful and legal sharing of information;
- keep up to date with the latest local and national trends in online safety;
- review and update this Policy and procedures, other online safety documents (e.g. Acceptable Use Agreements) and the strategy on which they are based (in line with Policies and procedures for behaviour and child protection) and submit for review on a regular basis to the Governors/Trustees;
- liaise with school technical, pastoral, and support staff as appropriate;
- communicate regularly with SLT and the designated online safety Governor/committee to discuss current issues (anonymised), review incident logs and filtering/change control logs;
- ensure that all staff are aware of the procedures that need to be followed in the event of an online safety incident and that these are logged in the same way as any other child protection incident;
- oversee and discuss 'appropriate filtering and monitoring' with Governors (both physical and technical) and ensure staff are aware of its necessity;
- ensure the DfE guidance on sexual violence and sexual harassment (Part five - [Keeping Children Safe in Education](#)) is followed throughout the school and that staff adopt a zero-tolerance approach to this as well as to bullying (in all its forms) generally;
- facilitate training and advice for staff and others working in the school to ensure that:
 - all staff who work directly with children must read and understand [KCSiE Part one](#) (which includes Annex B). The DSL, Headteacher and other members of the SLT must read and understand the whole of [Keeping Children Safe in Education](#)
 - all staff are aware of information relevant to their role in keeping children safe online signposted in KCSiE [Annex B](#)
 - cascade knowledge of risks and opportunities throughout the organisation;
- be aware of emerging online safety issues and legislation, and of the potential for serious child protection issues to arise from:
 - sharing of personal data;
 - access to illegal/inappropriate materials;
 - inappropriate online contact with adults/strangers;
 - potential or actual incidents of grooming;
 - cyberbullying and the use of social media.

1.4 All Staff

It is the responsibility of all staff to:

- understand that online safety is a core part of safeguarding; as such it is part of everyone's role. Never think that 'someone else will pick it up';
- know who the Designated Safeguarding Lead, and deputies are;
- read and understand [Part one \(which includes Annex B\)](#) of [Keeping Children Safe in Education](#) unless they **do not** work directly with children when they must read and understand Annex A instead;
- read, understand, and help promote the school's Online Safety Policy and procedures in conjunction with the Child Protection and other related school Policies and procedures;
- read, sign, and follow the school Staff Acceptable Use Agreement and staff Code of Conduct;
- be aware of online safety issues related to the use of mobile technology e.g. phones, cameras and other hand-held devices and follow school procedures in relation to these devices;
- ensure the security of their username and password for the school system, not allow other users to access the systems using their log on details and immediately report any suspicion or evidence that there has been a breach of security. Passwords will be changed in accordance with current recommendations.
- record online safety incidents in the same way as any child protection incident and report incidents to the DSL/OSL in accordance with school procedures;

- notify the DSL/OSL if policy does not reflect practice in the school and follow escalation procedures if concerns are not promptly acted upon;
- identify opportunities to thread online safety through all school activities, both outside the classroom and within the curriculum, supporting curriculum/stage/subject leads, and making the most of unexpected learning opportunities as they arise;
- whenever overseeing the use of technology (devices, the Internet, new technology such as augmented reality, etc.) in school or setting as homework tasks, encourage sensible use, monitor what pupils are doing and consider potential dangers and the age appropriateness of websites (check what appropriate filtering and monitoring processes are in place);
- carefully supervise and guide pupils when engaged in learning activities involving online technology, supporting them with search skills, critical thinking (e.g. fake news), age-appropriate materials and signposting, and legal issues such as copyright and data law;
- prepare and check all online source and resources before using in the classroom;
- encourage pupils to follow their Acceptable Use Agreement, regularly remind them about it and enforce school sanctions where there is a breach of the Agreement;
- notify the DSL of new trends and issues before they become a problem;
- take a zero-tolerance approach to bullying and low-level sexual harassment either offline or online;
- receive and act upon regular updates from the DSL and have a healthy curiosity for online safety issues;
- model safe, responsible, and professional behaviours in their own use of technology. This includes outside the school hours and site, and on social media, in all aspects upholding the reputation of the school and the professional reputation of all staff;
- ensure that any digital communications with pupils are on a professional level and only through school-based systems, never through personal mechanisms, e.g. email, text, mobile phones or social media messaging or posts.

1.5 PSHE/RSHE Lead(s)

Responsibilities of PSHE/RSHE Leads include:

- all as listed in the 'all staff' section above;
- ensuring that consent, mental wellbeing, healthy relationships and staying safe online is embedded into the PSHE/Relationships education, relationships, and sex education (RSE) and health education curriculum. This will include being taught what positive, healthy and respectful online relationships look like, the effects of the pupils' online actions on others and knowing how to recognise and display respectful behaviour online. Throughout these subjects, teachers will address online safety and appropriate behaviour in an age-appropriate way that is relevant to their pupils' lives (KCSiE);
- complementing the computing curriculum which covers the principles of online safety at all key stages, with progression in the content to reflect the different and escalating risks that pupils face. This includes how to use technology safely, responsibly, respectfully, and securely, and where to go for help and support when the pupil has concerns about content or contact on the Internet or other online technologies;
- working closely with the DSL and all other staff to ensure an understanding of the issues, approaches, and messages within PSHE/RSHE.

1.6 Computing/Subject Lead(s)

Responsibilities of the Computing Lead include:

- all as listed in the 'all staff' section above;
- the overseeing delivery of the online safety element of the Computing curriculum in accordance with the national curriculum;
- working closely with the DSL/OSL and all other staff to ensure an understanding of the issues, approaches, and messages within Computing;
- collaboration with technical staff and others responsible for ICT use in school to ensure a common and consistent approach, in line with Acceptable Use Agreements.

1.7 Network Manager/Technical staff

Responsibilities of the Network Manager/ICT services:

- all as listed in the 'all staff' section above;
- reporting any online safety related issues that arise, to the DSL in the first instance;
- keeping up to date with the school's Online safety Policy and technical information to effectively carry out their online safety role and to inform and update others as relevant;
- working closely with the DSL/DPO to ensure that school systems and networks reflect school Policy;
- ensuring that the above stakeholders understand the terms of existing services and how any changes to these systems (especially in terms of access to personal and sensitive records/data and to systems such as YouTube mode, web filtering settings, sharing permissions for files on cloud platforms etc.) might affect the system functions and safety online;
- supporting and providing advice on the implementation of 'appropriate filtering and monitoring' as determined by the DSL and SLT;
- ensuring that users may only access the school's networks through an authorised and properly enforced password protection procedures, in which passwords are regularly changed;
- ensuring that the school's ICT infrastructure is secure and is not open to misuse or malicious attack e.g. keeping virus protection up to date;
- ensuring that access controls/encryption exist to protect personal and sensitive information held on school-owned devices;
- monitoring the use of the network/remote access/email and social media presence and that any misuse/attempted misuse is reported to the DSL/ in line with school Policy;
- ensuring that appropriate backup procedures exist so that critical information and systems can be recovered in the event of a disaster and to complement the business continuity process;
- maintaining up-to-date documentation of the school's online security and technical procedures;
- working with the Headteacher to ensure the school website meets statutory DfE requirements;
- reporting online safety issues that come to their attention in line with school Policy.

1.8 Data Protection Officer (DPO)

The DPO will be familiar with references to the relationship between data protection and safeguarding in key DfE documents '[Keeping Children Safe in Education](#)' and '[Data protection: a toolkit for schools](#)'.

Neither the Data Protection Act 2018 nor UK GDPR prevent, or limit, the sharing of information for the purposes of keeping children safe. Information which is sensitive and personal will be treated as 'special category personal data' for the purposes of compliance with DPA 2018. Legal and secure information sharing between schools, Children's Social Care and other local agencies is essential for keeping children safe and ensuring they get the support they need. Information can be shared without consent if to gain consent would place a child at risk. Fears about sharing information **must not** be allowed to stand in the way of promoting the welfare and protecting the safety of children. As with all data sharing, appropriate organisational and technical safeguards will be in place.

Other responsibilities of the DPO include:

- working with the DSL, Headteacher and Governors to ensure frameworks are in place for the protection of data and of safeguarding information sharing as outlined above;
- ensuring that all access to safeguarding data is limited as appropriate, monitored, and audited.

1.9 Volunteers and contractors

The key responsibilities of volunteers and contractors are to:

- read, understand, sign, and adhere to any Acceptable Use Agreement issued by the school;
- report any concerns, no matter how small, to the DSL/OSL without delay;
- maintain an awareness of current online safety issues and guidance;
- model safe, responsible, and professional behaviours in their own use of technology.

1.10 Pupils

Taking into account their age and level of understanding, the key responsibilities of pupils are to:

- use the school ICT systems in accordance with the age-appropriate Pupil Acceptable Use Agreement – see links on contents page, which they and/or their parents will be expected to sign before being given access to school systems. As with consent on data (privacy notices) Agreements must be written in terms the child can understand;
- ensure the security of their username and password for the school system, not allow other users to access the systems using their log on details and must immediately report any suspicion or evidence that there has been a breach of security;
- understand the importance of reporting abuse, misuse or access to inappropriate materials including those involving hoaxes and on-line challenges and know how to do so;
- know what action to take if they or someone they know feels worried or vulnerable when using online technology;
- understand the importance of adopting safe and responsible behaviours and good online safety practice when using digital technologies outside of school and realise that the school's acceptable use agreements cover their actions out of school, including on social media;
- know and understand school procedures on the use of mobile phones, digital cameras, and hand-held digital devices;
- know and understand school procedures on the taking/use of images and on cyberbullying/sharing nude and/or semi-nude images and/or videos;
- understand the benefits/opportunities and risks/dangers of the online world and know who to talk to at school if there are problems.

1.11 Parents

Parents play a crucial role in ensuring that their children understand the need to use the Internet/mobile devices in an appropriate way. Research shows that many parents do not fully understand the issues and are less experienced in the use of ICT than their children. The school will therefore take every opportunity to help parents understand these issues through parents' evenings, newsletters, letters, website and information about national/local online safety campaigns/literature.

The key responsibilities for parents are to:

- support the school in promoting online safety which includes the pupils' use of the Internet and the school's use of photographic and video images;
- read, sign, and promote the Pupil Acceptable Use Agreement and encourage their child to follow it;
- consult with the school if they have any concerns about their child's and others' use of technology;
- promote positive online safety and model safe, responsible, and positive behaviours in their own use of technology (including on social media) by ensuring that they themselves do not use the Internet/social network sites/other forms of technical communication in an inappropriate or defamatory way;
- support the school's approach to online safety by not uploading or posting to the Internet any images or details of others without permission and refraining from posting pictures, video or text that could upset, offend, or threaten the safety of any member of the school community or bring the school into disrepute.

2. Teaching and Learning

The breadth of issues classified within online safety is considerable, but can be categorised into four areas of risk known as the 4Cs:

- **Content:** being exposed to illegal, inappropriate, or harmful content, for example: pornography, fake news, racism, misogyny, self-harm, suicide, anti-Semitism, radicalisation, and extremism.
- **Contact:** being subjected to harmful online interaction with other users; for example: peer to peer pressure, commercial advertising and adults posing as children or young adults with the intention to groom or exploit them for sexual, criminal, financial, or other purposes.

- **Conduct:** personal online behaviour that increases the likelihood of, or causes, harm; for example, making, sending, and receiving explicit images (e.g. consensual and non-consensual sharing of nudes and semi-nudes and/or pornography, sharing other explicit images and online bullying); and
- **Commerce:** risks such as online gambling, inappropriate advertising, phishing and/or financial scams.

Strong links between teaching online safety and the curriculum (see also Roles above) are the clearest in:

- Personal, Social and Health Education (PSHE)
- Relationships education, relationships, and sex education (RSE) and health
- Computing
- Citizenship/Religious Studies

It is the role of all staff to identify opportunities to thread online safety through all school activities, both outside the classroom and within the curriculum, supporting subject lead staff and making the most of unexpected learning opportunities as they arise.

Whenever overseeing the use of technology (devices, the Internet, new technology such as augmented reality, etc) in school or setting as homework tasks, all staff will encourage sensible use, monitor what pupils are doing and consider potential dangers and the age appropriateness of websites.

Equally, all staff should carefully supervise and guide pupils when engaged in learning activities involving online technology (including, extra-curricular and extended school activities if relevant), supporting them with search skills, critical thinking (e.g. fake news), age-appropriate materials and signposting, and legal issues such as copyright, plagiarism, and data law.

We recognise that online safety and broader digital resilience must be included throughout the curriculum.

Annual reviews of curriculum plans / schemes of work (including for SEND pupils) are used as an opportunity to assess the key areas of Self-image and Identity, Online relationships, Online reputation, Online bullying, Managing online information, Health, Wellbeing and lifestyle, Privacy and security, and Copyright and ownership.

2.1 How internet use enhances learning

This school:

- has a clear, progressive online safety education programme as part of the Computing/PSHE curriculum. This covers the teaching of a range of skills and behaviours which are appropriate to the age and experience of the pupils concerned and include those to:
 - STOP and THINK before they CLICK;
 - develop a range of strategies to evaluate and verify information before accepting its accuracy;
 - be aware that the author of a website/page may have a particular bias or purpose and to develop skills to recognise what that may be;
 - know how to narrow down or refine a search;
 - [for older pupils] understand how search engines work and to understand that this affects the results they see at the top of the listings;
 - understand acceptable behaviour when using an online environment/email, i.e. be polite, no bad or abusive language or other inappropriate behaviour; keeping personal information private;
 - understand how photographs can be manipulated and how web content can attract unwanted or inappropriate attention;
 - understand why they should not post or share detailed accounts of their personal lives, contact information, daily routines, location, photographs, and videos and to know how to ensure they have turned-on privacy settings;
 - understand why they must not post pictures or videos of others without their permission;
 - know not to download any files – such as music files – without permission;
 - have strategies for dealing with receipt of inappropriate materials;
 - [for older pupils] understand why and how some people will ‘groom’ young people for sexual or extremist ideology reasons;
 - understand the impact of cyberbullying, sharing inappropriate images and trolling and know how to seek help if they are affected by any form of online bullying;

- know how to report any abuse including cyberbullying; and how to seek help if they experience problems when using the Internet and related technologies, i.e. parent, teacher or trusted staff member, or an organisation such as ChildLine or the CLICK CEOP button.
- plans internet use carefully to ensure that it is age-appropriate and supports the learning objectives for specific curriculum areas;
- will remind pupils about their responsibilities through an end-user Acceptable Use Agreement which will be displayed throughout the school or when they log on to the school's network;
- ensures staff model safe and responsible behaviour in their own use of technology during lessons;
- ensures that when copying materials from the web, staff and pupils understand issues around plagiarism; how to check copyright and know that they must respect and acknowledge copyright/intellectual property rights;
- ensures that staff and pupils understand the issues around aspects of the commercial use of the Internet, as age appropriate. This may include risks in pop-ups; buying online; online gaming/gambling etc.

2.2 Pupils with additional needs

We use a wide range of strategies to support children with additional needs who might need extra support to keep themselves safe, especially online.

- Sensitively check pupil's understanding and knowledge of general personal safety issues using reminders and explicit prompts to link their existing knowledge of "how to keep safe" to the rules that will apply specifically to, for instance, internet use.
- Apply rules consistently to embed understanding.
- Communicate rules clearly to parents and seek their support in implementing school rules at home. Working with parents and sharing information with them is relevant to all children, but this group especially.
- Careful explanations about why rules might change in different situations i.e. why it is ok to give your name and address to an adult if you are lost in town, but not when using the Internet.
- Consistent use of cause and effect linking the rules to consequences teaching realistic and practical examples of what might happen if... without frightening pupils.

2.3 Remote Education

Expired legislation which led to the [Remote Education \(England\) Temporary Continuity \(No.2\) direction](#) no longer has effect, but the DfE expects schools to maintain their capabilities to deliver high quality remote education in cases where it is not possible or contrary to government guidance for some or all pupils to attend face-to-face education.

Our priority will always be to deliver high-quality face-to-face education to all pupils. Remote education will only ever be considered as a short-term measure and as a last resort where in person attendance is not possible.

This might include:

- occasions when our headteacher decides that it is not possible for us to open safely, or that opening would contradict guidance from local or central government
- occasions when individual pupils, for a limited duration, are unable to physically attend school but are able to continue learning, for example pupils with an infectious illness.

In these circumstances pupils will have access to remote education as soon as we reasonably can in proportion to the length of absence and disruption to their learning.

We will try to provide remote education equivalent in length to the core teaching pupils would receive in school. This can include recorded or live direct teaching time, as well as time for pupils to complete tasks and assignments independently, and we understand good practice is considered to be:

- 5 hours a day for key stages 3, 4 & 5

In developing our remote education provision, we have:

- selected Classcharts and Microsoft Teams digital platforms to use consistently across the school to allow interaction, assessment, and feedback with procedures in place to ensure staff are trained and confident in its use. This enables us to provide online video lessons recorded by teaching staff and high-quality lessons developed by external providers as well as monitored methods of communication.
- identified ways to discover and overcome barriers to digital access for pupils e.g. forms or other survey methods, distributing school-owned laptops, securing appropriate internet connectivity solutions, providing printed resources, such as textbooks and workbooks, to structure learning, supplemented with other forms of communication to keep pupils on track or answer questions about work.
- ensured that school-owned devices distributed for the purpose of access to remote education will always include appropriate [safeguarding controls and support](#) to help children and families, and staff use them safely, including information about physically healthy computing e.g. posture, the teaching and learning environment, sleep.
- Considered how to transfer effective teaching from the classroom into remote education.
- Determined our thresholds of absence at which we will again publish on the school website up-to-date information about what is intended to be taught and practised in each subject so that pupils can progress through the curriculum. This may trigger reviews and updates of relevant Policies, procedures, and supporting documents like our Acceptable Use Agreements.
- Put systems in place for checking, daily, whether pupils are engaging with their work, so we can work with families to rapidly identify effective solutions where engagement is a concern.
- Identified a named senior leader Mr David Samson, Deputy Headteacher, who will take overarching responsibility for the oversight of the quality, delivery, and safety of remote education.
- Considered issues that specific individuals or groups of pupils may have engaging with remote education due to their age, stage of development, special educational needs, or disability e.g. where this would place significant demands on parents' help or support, ensuring that the teachers best placed to know how the pupil's needs can be most effectively met to ensure they continue to make progress, work with families to deliver an ambitious and appropriate curriculum
- Sought to demonstrate that we understand the requirement for schools under the [Children and Families Act 2014](#) to use our best endeavours to secure the special educational provision called for by the pupils' special educational needs remains in place.
- Identified potential personal, professional, and children's safeguarding issues associated with the provision of remote education; put in place hardware, software, procedures, and training to reduce the risk of harm to the adults, children, and young people exposed to it; and ensured the risks are being addressed in a consistent and ongoing way through the curriculum (see below).

In the provision of remote education this school undertakes to:

- Communicate with parents to reinforce the importance of children being safe online by providing information on the systems we use to filter and monitor online use
- Set meaningful and ambitious work each day in an appropriate range of subjects, with clear information for parents on what their child is being asked to do online (including the sites they will be asked to access), and who from the school (if anyone) their child is going to be interacting with online
- Transfer into remote education what we already know about effective teaching in live classrooms by:
 - providing frequent, clear explanations of new content, delivered by a teacher or through high-quality curriculum resources
 - providing opportunities for interactivity, including questioning, eliciting and reflective discussion
 - providing scaffolded practice and opportunities to apply new knowledge
 - enabling pupils to receive timely and frequent feedback on how to progress, using digitally facilitated or whole-class feedback where appropriate
 - using assessment to ensure teaching is responsive to pupils' needs and addresses any critical gaps in pupils' knowledge
 - avoiding an over-reliance on long-term projects or internet research activities
- Ensure leaders and teachers can access the DfE webpage [Get help with technology for remote education](#) which signposts to Microsoft etc. guidance on setting up devices for remote learning safely.
- Review and self-assess our remote education offer regularly.
- Continue to record attendance accurately in the register for pupils who are receiving remote education in line with DfE non-statutory guidance [Working together to improve school attendance](#).

- Carry out an annual review of the school's approach to online safety, supported by an annual risk assessment that considers and reflects the risks the pupils that attend this school face using a tool like the [360 safe website](#).

We recognise that there are additional safeguarding risks to pupils associated with them spending more time online than before the global pandemic, both in their leisure time and to be able to access remote education. There may also be risks from or to the people they live with during live video link work and staff are expected to plan accordingly and seek advice from the OSL/DSL as necessary. The pupil Acceptable Use Agreement includes expected conduct during remote education activities.

We recognise that there are additional safeguarding risks to staff as well, especially those facilitating remote learning via live video links that may also impact other people in their household or community. The Staff Code of Conduct sets out expected good remote education practice.

Staff are expected to:

- follow DfE guidance [Safeguarding and remote education](#) and safeguarding procedures when planning remote education strategies and teaching remotely
- Provide information about their temporary home working environment insofar as it might impact on their physical health, or the safeguarding of learners or their own household.
- Act appropriately on feedback and use any necessary online or cyber tools provided.
- Provide information about the technology they use at home to get online i.e. to ensure compatibility with school systems, especially cyber security measures involved in accessing sensitive data like medical, behaviour or performance information on school servers remotely.
- Implement relevant guidance on safe teaching and pastoral care from their home e.g. what is in the background of recorded or live streams, what is visible on shared screens, what can be heard by others in a household etc.
- Pay special attention to how they protect personal data at home.
- Report to their line manager any issues or concerns they may have either about their personal safety or that of a pupil.
- Keep talking about staying safe online, which we can do by:
 - Ensuring staff have the tools to promote a healthy balance between the positive and negative aspects of life online.
 - Signposting parents and carers to tools to explain and reduce risks and help them talk to their child.
 - Reiterating behaviour expectations and ways to handle and report problems, especially encouraging children to speak to a trusted adult if they come across content online that makes them uncomfortable.
 - Supporting critical thinking and promoting resources like [It's not easy being a parent in the digital age | Parent Zone](#) and [Trust Me | Childnet](#) which provide ways parents and carers can help their child develop these skills.

3. Handling online safety concerns and incidents

Our staff recognise that online safety is only one element of the wider safeguarding agenda as well as being a curriculum strand of Computing, PSHE/RSHE and Citizenship/Religious Studies.

General concerns will be handled in the same way as any other child protection concern. Early reporting to the DSL is vital to ensure that the information contributes to the overall picture or highlights what might not yet be a problem.

Support staff will often have a unique insight and opportunity to find out about issues first in outdoor spaces, corridors, toilets, and other communal areas outside the classroom (particularly relating to bullying and sexual harassment and violence).

Procedures for dealing with online safety, concerns and incidents are detailed in the following Policies:

- Child Protection Policy and procedures
- Anti-Bullying (Child on child abuse) Policy and procedures
- Expectations for Learning Behaviour Policy and procedures

- Acceptable Use Agreements
- Prevent Risk Assessment
- Data Protection Policy, agreements, and other documentation (e.g. privacy statement, consent forms for data sharing image use etc.)

We are committed to taking all reasonable precautions to ensure online safety but recognise that incidents will occur both inside and outside school. All members of the school community are encouraged to report issues swiftly to school staff so that they can be dealt with quickly and sensitively through the school's escalation processes.

Any suspected online risk or infringement should be reported to the DSL on the same day wherever possible or, if out of school, the following school day.

Any concern/allegation about misuse by staff or other adult in school will always be referred directly to the Headteacher unless the concern is about the Headteacher, in which case, the complaint will be directed to the Chair of Governors. Staff may also use the NSPCC Whistleblowing Helpline. Call 0800 028 0285 or email: help@nspcc.org.uk.

The school will actively seek support from other agencies as needed (i.e. Local Authority Safeguarding Hub, UK Safer Internet Centre's Professionals' Online Safety Helpline (03443814772), NCA CEOP, Cumbria Police Prevent Officer, Cumbria Police, Internet Watch Foundation (IWF)). We will inform parents of online safety incidents involving their child and the Police where staff or pupils engage in or are subject to behaviour which we consider is particularly disturbing or is considered illegal. See Sections below for procedures for dealing with the sharing of nude and/or semi-nude images and/or videos, upskirting and online (cyber) bullying.

- In this school there is strict monitoring and application of the Online Safety Policy and a differentiated and appropriate range of sanctions.
- All members of the school community will be informed about the procedure for reporting online safety concerns (such as breaches of filtering, cyberbullying, illegal content etc.).
- The DSL will record all reported incidents and actions taken in the School Online Safety incident log and other in any relevant areas e.g. Bullying or Child protection log.
- The Designated Safeguarding Lead will be informed of any online safety incidents involving Child Protection concerns, which will then be escalated appropriately – See Child Protection Policy and procedures for dealing with concerns.
- The school will manage Online Safety incidents in accordance with the school Expectations for Learning Behaviour Policy where appropriate.
- The school will inform parents of any incidents or concerns as and when required.
- After any investigations are completed, the school will debrief, identify lessons learnt and implement any changes required.
- Where there is cause for concern or fear that illegal activity has taken place or is taking place then the school will contact the Safeguarding Hub **and** escalate the concern to the Police.
- If the school is unsure how to proceed with any incidents of concern, then the incident may be escalated to the Safeguarding Hub – see Child Protection Policy and procedures.

If members of staff suspect that misuse might have taken place, but that the misuse is not illegal (as above) it is essential that correct procedures are used to investigate, preserve evidence, and protect those carrying out the investigation. More than one member of staff should be involved in the investigation which should be carried out on a "clean" designated computer.

Incidents will be dealt with as soon as possible in a proportionate manner through normal behaviour/disciplinary procedures. It is important that, where necessary, members of the school community are made aware that incidents have been dealt with.

3.1 Sharing nude and semi-nude images

Where incidents of the sharing of nude and semi-nude images via the internet or mobile phone by those under the age of 18 are discovered, we will refer to the UK Council for (UKCIS) guidance '[Sharing nude and](#)

[semi-nude images](#)'. A copy of this document is available from the school office. Where one of the parties is over the age of 18 and the other is under 18, we will refer to it as child sexual abuse.

All staff and other relevant adults have been issued with a copy of the UKCIS overview document ([Sharing nudes and semi-nudes: how to respond to an incident](#)) in recognition of the fact that it is generally someone other than the DSL or OSL who will first become aware of an incident. Staff, other than the DSL, must not intentionally view, copy, print, share, store or save or delete the image or ask anyone else to do so but must report the incident to the DSL as soon as possible.

It is the responsibility of the DSL to follow the guidance issued by UKCIS, decide on the next steps and whether to involve other agencies as appropriate.

It is important to understand that whilst the sharing of nude and semi-nude images is illegal, pupils should be encouraged to discuss with staff situations if they have made a mistake or had a problem with this issue.

The UKCIS advice outlines how to respond to an incident of nudes and semi-nudes being shared including:

- risk assessing situations;
- safeguarding and supporting children and young people;
- handling devices and images;
- recording incidents, including the role of other agencies.
- informing parents and carers

The types of incidents which this advice covers are:

- a person under the age of 18 creates and shares nudes and semi-nudes of themselves with a peer under the age of 18;
- a person under the age of 18 shares nudes and semi-nudes created by another person under the age of 18 with a peer under the age of 18;
- a person under the age of 18 is in possession of nudes and semi-nudes created by another person under the age of 18.

3.2 Upskirting

All staff are aware that 'upskirting' (taking a photo of someone under their clothing) is now a criminal offence, but that pupils should be encouraged to discuss with staff situations if they have made a mistake or had a problem with this issue. If staff or other adults become aware of an incident of 'upskirting', the issue must be reported to the DSL as soon as possible.

3.3 Cyberbullying

Cyberbullying (also known as online bullying) can be defined as the use of information and communications technology particularly mobile devices and the internet, deliberately to upset someone else and reported incidents will be treated in the same way as any other form of bullying. The Behaviour Policy and procedures will be followed in relation to sanctions taken against the perpetrator. It is important not to treat online bullying separately to offline bullying and to recognise that some bullying will have both online and offline elements. Support will be provided to both the victim and the perpetrator. In some cases, it may be necessary to inform or involve the Police.

Many young people and adults find that using the Internet and mobile phones is a positive and creative part of their everyday life. Unfortunately, technologies can also be used negatively. When children are the target of bullying via mobile phones, gaming, or the Internet, they can often feel very alone, particularly if the adults around them do not understand cyberbullying and its effects. A once previously safe and enjoyable environment or activity can become threatening, harmful and a source of anxiety. It is essential that young people, school staff and parents understand how cyberbullying is different from other forms of bullying, how it can affect people and how to respond and combat misuse. Promoting a culture of confident users will support innovation and safety.

There are several statutory obligations on schools in relation to behaviour which establish clear responsibilities to respond to bullying. In particular, section 89 of the Education and Inspections Act 2006:

- every school must have measures to encourage good behaviour and prevent all forms of bullying amongst pupils. These measures should be part of the school's Behaviour Policy which must be communicated to all pupils, school staff and parents;
- gives Headteachers the ability to ensure that pupils behave when they are not on school premises or under the lawful control of school staff.

Where bullying outside school (such as online or via text) is reported to the school, it will be investigated and acted on in line with the school Expectations for Learning Behaviour Policy and procedures.

Although bullying in itself is not a specific criminal offence in the UK, it is important to bear in mind that some types of harassing or threatening behaviour or communications could be a criminal offence, for example under the Protection from Harassment Act 1997, the Malicious Communications Act 1988, the Communications Act 2003, and the Public Order Act 1986. If school staff feels that an offence may have been committed, they should seek assistance from the Police.

DfE and Childnet have produced resources and guidance that we expect staff to use to give practical advice and guidance on [cyberbullying](#):

- Cyberbullying (along with all other forms of bullying) of any member of the school community will never be tolerated. Full details are set out in the Expectations for Learning Behaviour Policy and procedures.
- There are clear procedures in place to support anyone in the school community affected by cyberbullying.
- All incidents of cyberbullying reported to the school will be recorded.
- There will be clear procedures in place to investigate incidents or allegations of cyberbullying.
- Pupils, staff, and parents will be advised to keep a record of the bullying as evidence.
- The school will take steps to identify the perpetrator, where possible and appropriate. This may include examining school system logs, identifying and interviewing possible witnesses, and contacting the service provider and the Police, if necessary.
- Pupils, staff, and parents will be required to work with the school to support the approach to cyberbullying and the school's online safety ethos.
- Sanctions for those involved in cyberbullying may include:
 - The perpetrator will be asked to remove any material deemed to be inappropriate or offensive.
 - A service provider may be contacted to remove content if the perpetrator refuses or is unable to delete content.
 - Internet access may be suspended at school for the user for a period of time. Other sanctions for pupils and staff may also be used in accordance with the Expectations for Learning (Behaviour Policy) and procedures, Acceptable Use Agreement and Disciplinary Procedures.
 - Parents of both the perpetrator(s) and the victim(s) will be informed.
 - The Police will be contacted if a criminal offence is suspected.

3.4 Harmful online challenges or hoaxes

An online challenge will generally involve users recording themselves taking a challenge and then distributing the resulting video through social media sites, often inspiring or daring others to repeat the challenge. Whilst many will be safe and fun, others can be potentially harmful and even life threatening.

If staff are confident children and young people are aware of, and engaged in, a real challenge that may be putting them at risk of harm, then it would be appropriate for this to be directly addressed by either the DSL or a senior leader in school. Careful consideration will be given on how best to do this, and it may be appropriate to offer focussed support to a particular age group or individual children at risk. We will take account of the fact that even with real challenges, many children and young people may not have seen it and may not be aware of it and will carefully weigh up the benefits of institution-wide highlighting of the potential harms related to a challenge against needlessly increasing children and young people's exposure to it.

Where staff become aware of a potentially harmful online hoax or challenge, they will immediately inform the DSL who will take the appropriate action either with the pupil concerned or with the wider group where the incident involves more than one pupil.

Where the DSL considers it necessary to directly address an issue, this can be achieved without exposing children and young people to scary or distressing content. In the response, we will consider the following questions:

- is it factual?
- is it proportional to the actual (or perceived) risk?
- is it helpful?
- is it age and stage of development appropriate?
- is it supportive?

A hoax is a deliberate lie designed to seem truthful. The internet and social media provide a perfect platform for hoaxes, especially hoaxes about challenges or trends that are said to be harmful to children and young people to be spread quickly.

We will carefully consider if a challenge or scare story is a hoax. Generally speaking, naming an online hoax, and providing direct warnings is not helpful. Concerns are often fuelled by unhelpful publicity, usually generated on social media, and may not be based on confirmed or factual occurrences or any real risk to children and young people. There have been examples of hoaxes where much of the content was created by those responding to the story being reported, needlessly increasing children and young people's exposure to distressing content.

Evidence from Childline shows that, following viral online hoaxes, children and young people often seek support after witnessing harmful and distressing content that has been highlighted, or directly shown to them (often with the best of intentions), by parents, carers, schools, and other bodies. In this respect, staff will be mindful of the advice provided by the UK Safer Internet Centre which provides guidance on [dealing with online hoaxes or challenges](#).

In any response, reference will be made to the DfE guidance '[Harmful online challenges and online hoaxes](#)'

3.5 Sexual violence and harassment

DfE guidance on sexual violence and harassment is referenced in Part five of '[Keeping Children Safe in Education](#)'. All staff are aware of this guidance.

We have a zero tolerance approach to all forms of sexual violence and harassment and will act appropriately on information which suggests inappropriate behaviour regardless of the considered seriousness. Any incident of sexual harassment or violence (online or offline) must be reported to the DSL at the earliest opportunity. The DSL will follow the guidance as outlined in the Child Protection Policy and procedures. Sanctions will be applied in line with our Expectations for Learning (Behaviour Policy) and procedures.

3.6 Misuse of school technology (devices, systems, networks, or platforms)

Clear and well communicated rules and procedures are essential to govern pupil and adult use of school networks, connections, internet connectivity and devices, cloud platforms and social media (both when on school site and outside of school).

These rules are defined in the relevant Acceptable Use Agreements as provided to pupils, staff, and Governors.

Where pupils contravene these rules, the Expectations for Learning (Behaviour Policy) and procedures will be applied; where staff contravene these rules, action will be taken as outlined in the staff code of conduct and, where necessary, the school disciplinary procedures.

The school reserves the right to withdraw, temporarily or permanently, any or all access to such technology or the right to bring mobile technology devices onto school property.

3.7 Social media incidents

See also Section 9. below. Social media incidents are governed by Acceptable Use Agreements. Breaches will be dealt with in line with these procedures, the Expectations for Learning (Behaviour Policy) procedures (for pupils) and the staff Code of Conduct/Disciplinary procedures (for staff and other adults).

Where an incident relates to an inappropriate, upsetting, violent or abusive social media post by an identifiable member of the school community, we will request that the post be deleted and will expect this to be actioned promptly.

Where an offending post has been made by a third party or is anonymous, the school may report it to the hosting platform, the Police or may contact the [Professionals' Online Safety Helpline](#) (UK Safer Internet Centre) for support or assistance in accelerating the process of removal.

4. Data protection and data security

All pupils, staff, Governors, parents, and other adults working in or visiting school are bound by the school's Data Protection Policy and procedures a copy of which is available from the school office.

There are references to the relationship between data protection and safeguarding in key DfE documents i.e. [Keeping Children Safe in Education](#) and [Data protection: a toolkit for schools](#) which the DPO and DSL will seek to apply.

The Headteacher, DPO and Governors work together to ensure a DPA compliant framework for storing data, but which ensures that child protection is always the primary consideration and data protection processes support careful and legal sharing of information. The Data Protection Act 2018 does not prevent, or limit, the sharing of information for the purposes of keeping children safe. Information which is sensitive and personal will be treated as 'special category personal data' for the purposes of compliance with the DPA. Legal and secure information sharing between schools, Children's Social Care and other local agencies is essential for keeping children safe and ensuring they get the support they need. Information can be shared without consent if to gain consent would place a child at risk. Fears about sharing information **must not** be allowed to stand in the way of promoting the welfare and protecting the safety of children. As with all data sharing, appropriate organisational and technical safeguards will be in place.

All pupils, staff, Governors, volunteers, contractors, and parents are bound by the school's Data Protection Policy and procedures.

4.1 Maintaining Information Systems Security

Local Area Network (LAN) security issues include:

- Users must act reasonably e.g. the downloading of large files or viewing sporting events during the working day will affect the service that others receive.
- Users must take responsibility for their network use. For staff, flouting the school Acceptable Use Agreement may be regarded as a reason for dismissal.
- Workstations should be secured against user mistakes and deliberate actions.
- Servers will be located securely and physical access restricted.
- The server operating system is secured and kept up to date.
- Virus protection for the whole network is installed and current.
- Access by wireless devices will be proactively managed and secured with a minimum of WPA2 encryption.

Wide Area Network (WAN) security issues include:

- Broadband firewalls and local CPEs (Customer Premises Equipment) are configured to prevent unauthorised access between schools.
- Decisions on WAN security are made in partnership between school and our network provider.

The following statements apply in our school:

- The security of the school information systems and users will be reviewed regularly.
- Virus protection will be updated regularly.

- Personal data sent over the Internet or taken off site will be encrypted.
- Portable media may not be used without specific permission followed by an anti-virus/malware scan.
- Unapproved software will not be allowed in work areas or attached to email.
- Files held on the school's network will be regularly checked.
- The ICT coordinator/network manager will review system capacity regularly.
- Use of user logins and passwords to access the school network will be enforced – see Section 6.2 below.

The school broadband and online suppliers are Virtue Technologies.

The Headteacher, Data Protection Officer and Governors work together to ensure a DPA compliant framework for storing data, but which ensures that child protection is always put first, and data protection processes support careful and legal sharing of information.

4.2 Password Security

We will ensure that the school network is as safe and secure as is reasonably possible and that users can only access data to which they have right of access; no user is able to access another's files without permission (or as allowed for monitoring purposes within the school's procedures); access to personal data is securely controlled in line with the school's personal data procedures; logs are maintained of access by users and of their actions while users of the system.

All users (adults and young people) will have responsibility for the security of their username and password, must not allow other users to access the systems using their log on details and must immediately report any suspicion or evidence that there has been a breach of security.

Passwords for new users, and replacement passwords for existing users can be allocated by The ICT Services Team. Any changes carried out must be notified to the member of staff responsible for issuing and coordinating password security (above).

Training/Awareness:

It is essential that users are made aware of the need to keep passwords secure, and the risks attached to unauthorised access/data loss. This will apply to even the youngest of users, even if class log-ons are being used.

Members of staff will be made aware of the school's password security procedures:

- at induction;
- through the school's Online Safety Policy and procedures;
- through the Acceptable Use Agreement.

Pupils will be made aware of the school's password security procedures:

- in Computing/ICT and/or Online Safety lessons;
- through the Acceptable Use Agreement.

The following rules apply to the use of passwords:

- the last four passwords cannot be re-used;
- Initial password will be a minimum of 6 characters long and must include three of – uppercase character, lowercase character, number, special character;
- the account should be "locked out" following six successive incorrect log-on attempts;
- temporary passwords e.g. used with new user accounts or when users have forgotten their passwords, shall be enforced to change immediately upon the next account log-on;
- passwords shall not be displayed on screen, and shall be securely hashed (use of one-way encryption);
- requests for password changes should be authenticated by ICT Services Team to ensure that the new password can only be passed to the genuine user.

Audit/Monitoring/Reporting/Review:

The ICT Services Team will ensure that full records are kept of:

- User Ids
- User log-ons;
- Security incidents related to this Policy and procedures.

In the event of a serious security incident, the Police may request and will be allowed access to passwords used for encryption. Local Authority Auditors also have the right of access to passwords for audit investigation purposes.

User lists, IDs and other security related information must be given the highest security classification and stored in a secure manner. These records will be reviewed by the Online Safety Committee at regular intervals.

5. Electronic Communications

5.1 Managing Email

Our general principles for email use are as follows:

- Pupils may only use approved email accounts for school purposes.
- Pupils must immediately tell a designated member of staff if they receive an offensive email or one which upsets or worries them.
- Pupils must not reveal personal details of themselves or others in email communication or arrange to meet anyone without specific permission from an adult.
- KS2 and above will be provided with individual school email addresses for educational use.
- Staff will only use official school provided email accounts to communicate with pupils and parents, as approved by the SLT. Any deviation from this must be agreed with the DSL/Headteacher.
- Any digital communication between staff and pupils or parents (email, chat, VLE etc.) must be professional in tone and content. These communications may only take place on official (monitored) school systems. Personal email addresses, text messaging or public chat/social networking programmes must not be used for these communications. Any unauthorised attempt to use a different system may be a safeguarding concern or disciplinary matter and should be notified to the DSL (if by a child) or to the Headteacher (if by a staff member).
- Staff are not permitted to use personal email accounts during school hours or for professional purposes.
- Pupils and staff are permitted to use the school email system for personal use and should be aware that all use is monitored, their emails may be read, and the same rules of appropriate behaviour apply at all times. Emails using inappropriate language, images, malware or to adult sites may be blocked and not arrive at their intended destination.
- Appropriate behaviour is expected at all times, and the system should not be used to send inappropriate materials or language which is or could be construed as bullying, aggressive, rude, insulting, illegal or otherwise inappropriate, or which (for staff) might bring the school into disrepute or compromise the professionalism of staff.
- Users must immediately report to the Headteacher or DSL the receipt of any email that makes them feel uncomfortable, is offensive, threatening or bullying in nature and must not respond to any such email.
- Pupils will be taught about email safety issues, such as the risks attached to the use of personal details. They will also be taught strategies to deal with inappropriate emails and be reminded of the need to write emails clearly and correctly and not include any unsuitable or abusive material.
- Personal information must not be posted on the school website and only official email addresses will be used to identify members of staff.
- Spam, phishing, and virus attachments can make email dangerous. The school ICT provider ensures mail is virus checked (ingoing and outgoing), includes spam filtering and backs emails up daily.

5.2 Emailing personal, sensitive, confidential, or classified information

Staff or pupil personal data should never be sent/shared/stored in emails and any data must be encrypted prior to being sent.

- Assess whether the information can be transmitted by other secure means before using email - emailing confidential data is not recommended and should be avoided where possible;
- The use of Hotmail, BTInternet, G-mail or any other Internet based webmail service for sending email containing sensitive information is not permitted;
- Where your conclusion is that email must be used to transmit such data:
 - Obtain express consent from your manager to provide the information by email;
 - Exercise caution when sending the email and always follow these checks before releasing the email:
 - Verify the details, including accurate email address, of any intended recipient of the information;
 - Verify (by phoning) the details of a requestor before responding to email requests for information;
 - Do not copy or forward the email to any more recipients than is necessary.
 - Do not send the information to any person whose details you have been unable to separately verify (usually by phone);
 - Send the information as an encrypted document **attached** to an email;
 - Provide the encryption key or password by a **separate** contact with the recipient(s) e.g. by telephone or in writing;
 - Do not identify such information in the subject line of any email;
 - Request confirmation of safe receipt.

5.3 Zombie accounts

Zombie accounts refer to accounts belonging to users who have left the school and therefore no longer have authorised access to the school's systems. Such Zombie accounts when left active can cause a security threat by allowing unauthorised access.

- Ensure that all user accounts are disabled once the member of the school has left;
- Prompt action on disabling accounts will prevent unauthorised access;
- Regularly change generic passwords to avoid unauthorised access.
- Staff will refer to further advice available at [IT Governance](#) as necessary.

6. School Website

The school website is a key public-facing information portal for the school community (both existing and prospective stakeholders) with a key reputational value. The Web Developer has day to day editorial responsibility for online content published by the school on the school website and will ensure that content published is accurate and appropriate. The school website is managed by/hosted by Cumbria County Council (Cumbria ISP Services).

The DfE has determined information which must be available on a school website. What academies, free schools and colleges should publish online (academies and free schools).

Where other staff submit information for the website, they are asked to consider the following principles:

- The contact details on the website are the school address, email, and telephone number. Staff, Governors, or pupils' personal information are not published.
- Email addresses will be published carefully online, to avoid being harvested for spam (e.g. by replacing '@' with 'AT').
- The school website will comply with the school's guidelines for publications including respect for intellectual property rights, privacy procedures and copyright.
- Where pupil work, images or videos are published on the website, their identities are protected, and full names are not published (remember also not to save images with a filename that includes a pupil's full name).

7. Use of digital and video images

The development of digital imaging technologies has created significant benefits to learning, allowing staff and pupils instant use of images that they have recorded themselves or downloaded from the Internet. However, staff, pupils and parents need to be aware of the risks associated with sharing images and with posting digital images on the Internet. Those images may remain available on the Internet forever and may cause harm or embarrassment to individuals in the short or longer term. There are many reported incidents of employers carrying out internet searches for information about potential and existing employees. The school will inform and educate users about these risks and will implement procedures to reduce the likelihood of the potential for harm:

- We gain parental permission for the use of digital photographs or video involving their child as part of the school agreement form when their child joins the school. This is a once in a school lifetime consent. Parents are required to inform the school if their consent changes.
- We seek consent for the publication of images from pupils.
- When we publish images or video, we will inform pupils and parents before publishing, so they have a chance to object as is their legal right under DPA 2018.
- We do not identify pupils in online photographic materials or include the full names of pupils in the credits of any published school produced digital materials. Photo file names/tags do not include full names to avoid accidentally sharing them.
- When using digital images, staff will inform and educate pupils about the risks associated with the taking, use, sharing, publication and distribution of images. Pupils are advised to be very careful about placing any personal photos on any 'social' online network space. They are taught to understand the need to maintain privacy settings so as not to make public, personal information.
- Staff are governed by their contract of employment, the staff Code of Conduct and sign the school's Acceptable Use Agreement. This includes a clause on the use of mobile phones/personal equipment for taking pictures of pupils.
- The school blocks/filter access to social networking sites or newsgroups unless there is a specific approved educational purpose.
- Members of staff may occasionally use personal phones to capture photos or videos of pupils. These will be appropriate, linked to school activities, taken without secrecy, and not captured in a one-to-one situation. Photos will always be moved to school storage as soon as possible after which they are deleted from personal devices and/or cloud services (Note: many phones automatically back up photos).
- Staff will ensure that when taking digital/video images that pupils are appropriately dressed and are not participating in activities that might bring the individuals or the school into disrepute.
- Digital images/videos are stored on the school network in line with the retention schedule of the school Data Protection Policy.
- Pupils are taught about how images can be manipulated in their online safety education programme and are taught to consider how to publish for a wide range of audiences which might include Governors, parents, or younger children as part of their ICT scheme of work;
- Pupils are taught that they should not post images or videos of others without their consent. We teach them about the risks associated with providing information with images (including the name of the file), that reveals the identity of others and their location, such as house number, street name or school. We teach them about the need to keep their data secure and what to do if they or a friend are subject to bullying or abuse.
- Staff and parents are regularly reminded about the importance of not sharing without consent, due to child protection concerns (e.g. children looked-after often have restrictions for their own protection) data protection, religious or cultural reasons or simply for reasons of personal privacy.
- If specific pupil photos (not group photos) are used on the school web site, in the prospectus or in other high-profile publications the school will obtain individual parental or pupil consent for its long-term use. A model Consent Form can be found in Kym Allan Health and Safety Consultants Ltd. (KAHSC) General Safety Series G21.
- A pupil's work can only be published with the consent of the pupil and parents. We will seek the consent of the pupil first and then, if necessary, the parents.

8. Cloud Platforms

This school adheres to the principles of the DfE document [Cloud computing services: guidance for school leaders, school staff and governing bodies](#) and our Data Protection Policy and procedures includes the use of Cloud services.

For online safety, basic rules of good password management, expert administration and training is used to keep staff and pupils safe and to avoid incidents. The DPO and network manager will analyse and document systems and procedures before they are implemented and regularly review them.

The following principles apply:

Privacy statements inform parents and children when and what type of data is stored in the cloud.

- Regular training ensures all staff understand sharing functionality and this is audited to ensure that pupil data is not shared by mistake. Open access or widely shared folders are clearly marked as such.
- Pupils and staff are only given access and/or sharing rights when they can demonstrate an understanding of what data may be stored and how it can be seen.
- Pupil images/videos are only made public with parental consent.
- Only school-approved platforms are used by students or staff to store pupil work.
- All stakeholders understand the difference between consumer and education products (e.g. a private Gmail account or Google Drive and those belonging to a managed educational domain).

9. Social Media

9.1 Managing social networking, social media, and personal publishing sites

This school operates on the principle that if we don't manage our social media reputation, someone else will. Online reputation management is about understanding and managing our digital footprint (everything that can be seen or read about the school online). Negative coverage almost always causes some level of disruption and can result in distress to individuals.

We therefore manage our social media footprint carefully to know what is being said about the school and in order to respond to criticism and praise in a fair, responsible manner.

The school has an official Facebook/Twitter/Instagram account which is managed by the school and will respond to general enquiries about the school, but we ask parents not to use these channels to communicate about their children or other personal matters.

Email is the official electronic communication channel between parents and the school, and between staff and pupils and we use SIMS INTOUCH to facilitate this securely

Staff, pupils', and parents' Social Media presence:

Social media is a fact of modern life and, as a school, we accept that many parents, staff, and pupils will use it. However, as stated in the Acceptable Use Agreements and our Expectations for Learning (Behaviour Policy) and procedures we expect everybody to behave in a positive manner, engaging respectfully with the school and each other on social media, in the same way as they would face to face.

This positive behaviour can be summarised as not making any posts which are, or could be construed as bullying, aggressive, rude, insulting, illegal or otherwise derogatory or inappropriate or which might bring the school, student body or teaching profession into disrepute. This applies to both public pages and to private posts e.g. parent chats, pages, or groups.

If parents have a concern about the school, we urge them to contact us directly and in private to resolve the matter. If an issue cannot be resolved in this way, the school complaints procedure (available via the school website) should be followed. Sharing complaints on social media is unlikely to help resolve the matter but can cause upset to staff, pupils, and parents, also undermining staff morale and the reputation of the school.

Many social media platforms have a minimum age of 13 but the school regularly deals with issues arising on

social media with pupils under the age of 13. We ask parents to respect age ratings on social media platforms wherever possible and not encourage or condone underage use. However, the school accepts that there is a balance between not encouraging underage use whilst at the same time needing to acknowledge reality in order to best help our pupils to avoid or cope with issues if they arise. Online safety lessons will look at social media and other online behaviour, how to be a good friend online and how to report bullying, misuse, intimidation, or abuse. However, children will often learn most from the models of behaviour they see and experience. Parents can best support this by talking to their children about the apps, sites, and games they use, with whom, for how long, and when (late at night is not helpful for a good night's sleep and productive teaching and learning at school the next day).

Pupils are not allowed¹ to be 'friends' with or make a 'friend request'² to any staff, Governors, volunteers or regular school contractors or otherwise communicate via social media. Pupils are discouraged from 'following' staff, Governors, volunteers, or regular school contractors public accounts (e.g. following a staff member with a public Instagram account). However, we accept that this can be difficult to control. This, however, highlights the need for staff to remain professional in their private lives. Conversely staff must not follow public pupil accounts.

Staff are reminded that they should not bring the school or profession into disrepute and the best way to avoid this is to have the strictest privacy settings and avoid inappropriate sharing and oversharing online. Staff must never discuss the school or its stakeholders on social media and ensure that their personal opinions are not attributed to the school.

The following principles apply:

- The school will control access to social media and social networking sites.
- Pupils will be advised never to give out personal details of any kind which may identify them and / or their location. Examples would include real name, address, mobile or landline phone numbers, school attended, IM and email addresses, full names of friends/family, specific interests, and clubs etc.
- Staff wishing to use Social Media tools with pupils as part of the curriculum will risk assess the sites before use and check the sites terms and conditions to ensure the site is age appropriate. Staff will obtain documented consent from the SLT before using Social Media tools in the classroom.
- Staff official blogs or wikis will be password protected and run from the school website with approval from the SLT. Members of staff are advised not to run social network spaces for pupil use on a personal basis.
- Personal publishing will be taught via age-appropriate sites that are suitable for educational purposes. They will be moderated by the school where possible.
- Pupils will be advised on security and privacy online and will be encouraged to set passwords, deny access to unknown individuals and to block unwanted communications.
- Pupils will be encouraged to approve and invite known friends only on social networking sites and to deny access to others by making profiles private.
- All members of the school community are advised not to publish specific and detailed private thoughts, especially those that may be considered threatening, hurtful, or defamatory.
- Concerns regarding a pupil's use of social networking, social media, and personal publishing sites (in or out of school) will be raised with their parents, particularly when concerning the underage use of sites.
- Staff personal use of social networking, social media and personal publishing sites will be discussed as part of staff induction and outlined in the school Staff Acceptable Use Agreement – see link on contents page.
- Further guidance can be found in the document 'Safe Use of Facebook and Other Social Networking Sites' on the KAHSC website.

¹ Exceptions may be made, e.g. for pre-existing family links, but these must be approved by the Headteacher and should be declared upon entry of the pupil or staff member to the school.

² Any attempt to do so may be a safeguarding concern or disciplinary matter and should be notified to the DSL (if by a child) or to the Headteacher (if by a staff member).

9.2 Personal devices and bring your own device (BYOD) procedures:

We recognise the widespread use of personal devices makes it essential that schools take steps to ensure mobile phones and devices, including wearable or “smart” technologies like health or fitness trackers, are used responsibly at school and it is essential that pupil use of their devices does not impede teaching, learning and good order in classrooms. Staff will be given clear boundaries on professional use.

Mobile devices can present a number of problems when not used appropriately:

- They are valuable items which may be stolen or damaged;
- Their use can render pupils or staff subject to sexual harassment, cyberbullying, and other forms of control;
- Apps or mobile devices which broadcast location data can make staff or pupils vulnerable to behaviours like stalking and can provide perpetrators with information to take cyberbullying into the real world.
- Internet access on phones and personal devices can allow pupils to bypass school security settings and filtering;
- They can undermine classroom discipline as they can be used on “silent” mode;
- Mobile phones with integrated cameras could lead to child protection, cyberbullying, and data protection issues in relation to inappropriate capture, use or distribution of inappropriate images of pupils or staff;

Permitted use of mobile phones and personal devices is a school decision and the following will apply:

- The use of mobile phones and other personal devices by pupils and staff in school will be decided by the school and covered in the relevant school Acceptable Use Agreement.
- The sending of abusive or inappropriate messages or content via mobile phones or personal devices is forbidden by any member of the school community and any breaches will be dealt with as part of the school Expectations for Learning Behaviour Policy and procedures.
- The school reserves the right to search the content of any mobile or handheld devices on the school premises where there is a reasonable suspicion that it may contain undesirable materials, including those which promote pornography, violence, or bullying. Staff mobiles or hand-held devices may be searched at any time as part of routine monitoring.
- School staff may confiscate a phone or device if they believe it is being used to contravene the school’s Behaviour Policy and procedures.
- If there is suspicion that the material on the mobile may provide evidence relating to a criminal offence the phone will be handed over to the Police for further investigation.
- Mobile phones and personal devices will not be used during lessons or formal school time unless as part of an approved and directed curriculum-based activity with consent from a member of staff. They should be switched off (not placed on silent) and stored out of sight on arrival at school. Staff members may use their phones during school break times. All visitors are requested to keep their phones on silent whilst in the school.
- The recording, taking, and sharing of images, video and audio on any mobile phone is to be avoided, except where it has been explicitly agreed otherwise by the Headteacher. Such authorised use is to be monitored and recorded. All mobile phone use is to be open to scrutiny and the Headteacher is authorised to withdraw or restrict authorisation for use at any time if it is deemed necessary. Where permission is given by the Headteacher, no images or videos are to be taken on mobile phones or personally owned mobile devices without the prior consent of the person or people in the image.
- The Bluetooth function of a mobile phone should always be switched off and not be used to send images or files to other mobile phones.
- Electronic devices of all kinds that are brought into school are the responsibility of the user. The school accepts no responsibility for the loss, theft, or damage of such items. Nor will the school accept responsibility for any adverse health effects caused by any such devices either potential or actual.
- Where parents or pupils need to contact each other during the school day, they should do so only through the school’s telephone. Staff may use their phones during break times. If a staff member is expecting a personal call, they may leave their phone with the school office to answer on their behalf or seek specific permissions to use their phone at other than their break time.

- Mobile phones and personal devices are not permitted to be used in certain areas within the school site such as changing rooms, toilets, and swimming pools.

Pupil use of personal devices:

- The 11-16 school does not allow mobile phones to be brought into school. However, the school accepts that there may be circumstances in which a parent wishes their child to have a mobile phone for their own safety. If this is the case, the circumstances should be discussed with the Head of Year and the normal rules regarding use during the school day will apply.
- If a pupil breaches the school procedures, then the phone or device will be confiscated and will be held in a secure place in the Year team office. Mobile phones and devices will be released to parents in accordance with the school Expectations for Learning Behaviour Policy and procedures.
- Phones and devices must not be taken into examinations. Pupils found in possession of a mobile phone during an exam will be reported to the appropriate examining body. This may result in the pupil's withdrawal from either that examination or all examinations.
- If a pupil needs to contact his/her parent, they will be allowed to use a school phone. Parents are advised not to contact their child via their mobile phone during the school day, but to contact the school office.
- Pupils should protect their phone numbers by only giving them to trusted friends and family members.
- Pupils will be instructed in safe and appropriate use of mobile phones and personal devices and will be made aware of boundaries and consequences.
- Pupils will be provided with school mobile phones or other hand-held personal devices to use in specific learning activities under the supervision of a member of staff. Such mobile phones will be set up so that only those features required for the activity will be enabled.

Staff use of personal devices:

- Staff are not permitted to use their own personal phones or devices for contacting children, young people, and their families within or outside of the setting in a professional capacity.
- Staff will be issued with a school phone where contact with pupils or parents is required.
- Mobile phones and personally owned devices will be switched off or switched to 'silent' mode; Bluetooth communication should be "hidden" or switched off, location data switched off unless being used only for the duration of a specific task like route directions on a school trip, and mobile phones or personally owned devices will not be used during teaching periods unless permission has been given by a member of SLT for emergency circumstances.
- If members of staff have an educational reason to allow children to use mobile phones or personal devices as part of an educational activity, then it will only take place when approved by the SLT.
- Staff should not use personal devices such as mobile phones or cameras to take photos or videos of pupils and will only use work-provided equipment for this purpose.
- Where members of staff are required to use a mobile phone for school duties, for instance in case of emergency during off-site activities, or for contacting pupils or parents, then a school mobile phone will be provided and used. In an emergency where a staff member does not have access to a school-owned device, they should use their own device and hide their own mobile number for confidentiality purposes.
- If a member of staff breaches the school Policy and procedures, then disciplinary action may be taken.

Parents are asked to keep phones out of sight whilst on the school premises. They must ask permission before taking any photos e.g. of displays in corridors or classrooms and avoid capturing other children. Parents are asked not to call pupils on their mobile phones during the school day; urgent messages can be passed via the school office.

Network/internet access on school devices

Pupils are not allowed networked file access via personal devices. However, some students are permitted to access the school wireless network for school-related internet use/limited personal use within the framework of the Acceptable Use Agreement. All such use is monitored.

Searching, Screening and Confiscation

In line with the DfE guidance '[Screening, searching and confiscation: advice for schools](#)', the Headteacher and staff authorised by them have a statutory power to search pupils/property on school premises (with consent for items banned by the school and without consent for items which are prohibited or illegal). Staff may examine any data or files on an electronic device they have confiscated as a result of a search, if there is good reason to do so. If the member of staff conducting the search suspects they may find an indecent image of a child (sometimes known as nude or semi-nude images), the member of staff must never intentionally view the image, and must never copy, print, share, store, save or delete such images.

When an incident might involve an indecent image of a child and/or video, the member of staff will confiscate the device, avoid looking at the device and refer the incident to the DSL (or deputy) as the most appropriate person to advise on the school's response. This includes the content of mobile phones and other devices, for example as a result of a reasonable suspicion that a device contains illegal or undesirable material, including but not exclusive to sexual images, pornography, upskirting, violence or bullying. Further details are available in the Behaviour Policy and procedures.

10. Managing filtering

The following issues will be addressed and regularly reviewed in relation to the management of filtering:

- The school's broadband access will include filtering appropriate to the age and maturity of pupils.
- The school will work with the School's Broadband team Virtue Technologies to ensure that filtering procedures are continually reviewed.
- The school will have a clear procedure for reporting breaches of filtering. All members of the school community (all staff and all pupils) will be aware of this procedure.
- If staff or pupils discover unsuitable sites, the URL will be reported to the School Online Safety Coordinator who will then record the incident and escalate the concern as appropriate.
- The school filtering system will block all sites on the [Internet Watch Foundation](#) (IWF) list.
- Changes to the school filtering procedures will be risk assessed by staff with educational and technical experience prior to any changes and where appropriate with consent from the SLT.
- The school SLT will ensure that regular checks are made to ensure that the filtering methods selected are effective.
- Any material that the school believes is illegal will be reported to appropriate agencies such as [IWF](#), the Police or [CEOP](#).
- The school's access strategy will be designed by educators to suit the age and curriculum requirements of the pupils, with advice from network managers.

South West Grid for Learning ([swgfl.org.uk](#)) have created [a tool](#) to check whether a school's filtering provider is signed up to relevant lists (CSA content, Sexual Content, Terrorist content Your Internet Connection Blocks Child Abuse & Terrorist Content).

11. Webcams and Surveillance Camera Systems (incl. CCTV)

The school uses a surveillance camera system for security and safety. The only people with access to the surveillance camera system are the ICT Services Team. Notification of camera system use is displayed at the front of the school and at various points throughout the building so that individuals are aware that a surveillance camera system is in operation. Staff will refer to the Information Commissioners Office (ICO) for further guidance and the school surveillance camera system procedures.

In relation to webcams:

- We do not use publicly accessible webcams in school

12. Managing emerging technologies

Many emerging communications technologies offer the potential to develop new teaching and learning tools, including mobile communications, internet access, collaboration, and multimedia tools. We will undertake a risk assessment on each new technology for effective and safe practice in classroom use to be

developed. The safest approach is to deny access until a risk assessment has been completed and safe practice has been established.

Virtual online classrooms and communities widen the geographical boundaries of learning. Approaches such as mentoring, online learning and parental access are becoming embedded within school systems. Online communities can also be one way of encouraging a disaffected pupil to keep in touch.

The safety and effectiveness of virtual communities depends on users being trusted and identifiable. This may not be easy, as authentication beyond the school may be difficult as demonstrated by social networking sites and other online tools such as Facebook, YouTube, Skype, and Twitter. The registering of individuals to establish and maintain validated electronic identities is essential for safe communication but is often not possible. Video conferencing introduces new dimensions; webcams are increasingly inexpensive and, with faster internet access, enable video to be exchanged across the Internet. The availability of live video can sometimes increase safety - you can see who you are talking to - but if inappropriately used, a video link could reveal security details.

New applications are continually being developed based on the Internet, the mobile phone network, wireless, Bluetooth or infrared connections. Users can be mobile using a phone, games console or personal digital assistant with wireless internet access. This can offer immense opportunities for learning as well as dangers such as a pupil using a phone to video a teacher's reaction in a difficult situation.

Schools should keep up to date with new technologies, including those relating to mobile phones and handheld devices, and be ready to develop appropriate strategies. For instance, text messaging via mobile phones is a frequent activity for many pupils and families; this could be used to communicate a pupil's absence or send reminders for exam coursework. There are dangers for staff however if personal phones are used to contact pupils and therefore, we will endeavour to make a school owned phone available if this kind of contact is necessary.

The inclusion of inappropriate language or images is difficult for staff to detect. Pupils may need reminding that such use is inappropriate and conflicts with school Policy and procedures. Abusive messages should be dealt with in line with the school's Expectations for Learning Behaviour Policy and procedures.

- Emerging technologies will be examined for educational benefit and a risk assessment will be carried out before use in school is allowed.
- Pupils will be instructed about safe and appropriate use of personal devices both on and off site in accordance with the school Acceptable Use Agreement/Mobile Phone procedures.

13. Policy Decisions

13.1 Authorising internet access

The school will allocate internet access to staff and pupils based on educational need. It will be clear who has internet access and who has not. Normally most pupils will be granted internet access. We will not prevent pupils from accessing the Internet unless the parents have specifically denied permission, or the child is subject to a sanction as part of our Expectations for Learning Behaviour Policy and procedures.

- The school will maintain a current record of all staff and pupils who are granted access to the school's electronic communications.
- All staff will read and sign the Staff Acceptable Use Agreement before using any school ICT resources.
- Parents will be asked to read and sign the School Acceptable Use Agreement for pupil access and discuss it with their child, where appropriate.
- Parents will be informed that pupils will be provided with supervised internet access appropriate to their age and ability.
- When considering access for vulnerable members of the school community (such as with children with special education needs) the school will make decisions based on the specific needs and understanding of the pupil(s).
- Secondary pupils gain internet access individually by agreeing to comply with the school online safety rules and Acceptable Use Agreement

13.2 Assessing risks

As the quantity and breadth of information available through the Internet continues to grow it is not possible to guard against every undesirable situation. The school will need to address the fact that it is not possible to completely remove the risk that pupils might access unsuitable materials via the school system.

Risks can be considerably greater where tools are used which are beyond the school's control such as most popular social media sites.

- The school will take all reasonable precautions to ensure that users access only appropriate material. However, due to the global and connected nature of internet content, it is not possible to guarantee that access to unsuitable material will never occur via a school computer. Neither the school nor the LA can accept liability for the material accessed, or any consequences resulting from internet use.
- The school will audit ICT use to establish if the Online Safety Policy and procedures is adequate and that the implementation of the Online Safety Policy is appropriate – see [LGfL Online Safety Audit](#).
- The use of computer systems without permission or for inappropriate purposes could constitute a criminal offence under the Computer Misuse Act 1990 and breaches will be reported to the Police using 101 or the appropriate online report from available from our local Constabulary website.
- Methods to identify, assess and minimise risks will be reviewed regularly.

13.3 Responding to incidents of concern

Refer to Section 3 above.

14. Communicating Policy and procedures

14.1 Introducing the Policy and procedures to Pupils

Many pupils are very familiar with the culture of mobile and internet use, so we try to involve them in the development of the School Online Safety Policy, through “pupil voice” activities like the School Council. As pupils' perceptions of the risks will vary, the online safety rules will be explained or discussed in an age-appropriate manner.

Online safety pupil and parental engagement programmes we can use include:

- [Think U Know](#) (now part of CEOP)
- [Childnet](#)

Pupil induction and ongoing training and education will include:

- Informing all users that network and internet use will be monitored.
- Establishing an online safety training programme across the school to raise the awareness and highlight the importance of safe and responsible internet use.
- Pupil instruction regarding responsible and safe use *before* internet access is given.
- An online safety module in the ICT programmes covering both safe school and home use.
- Accessible Online Safety rules or copies of the pupil Acceptable Use Agreement including posters in all rooms with computers/internet access.
- Regular reinforcement of safe and responsible use of the Internet and technology across the curriculum, in all subject areas, and extended schools or extra-curricular activities.
- Particular attention paid to Online Safety education where pupils are considered to be vulnerable.

14.2 Discussing the Policy and procedures with Staff

It is important that all staff feel confident meeting the demands of using ICT appropriately in teaching, administration, and all other aspects of their school and personal life and the School Online Safety Policy and procedures will only be effective if all staff subscribe to its values and methods.

Staff will be given opportunities to discuss the issues and develop appropriate teaching or other work strategies. It would be unreasonable, for instance, if cover or supply staff were asked to take charge of an internet activity without preparation.

Any member of staff who has concerns about any aspect of their own or anyone else's ICT or internet use either on or off site, they should discuss this with their line manager. Where concerns are related to children's safeguarding, they should also be reported to the DSL who should follow the Child Protection Policy and procedure for recording and reporting allegations that meet the harm threshold and recording (and in some case reporting i.e. to a contractor's employer) low level concerns that do not.

Consideration is given when members of staff are provided with devices by the school which may be accessed outside of the school network. Staff are made aware of their responsibility to maintain the security and confidentiality of school information.

All staff have a universal duty to understand harms and protect children from them, including online. ICT use is widespread and all staff including administration, midday supervisors, facilities staff, Governors, and volunteers who use it or work with children who use it are included in awareness raising and training.

Induction of all new staff will include:

- A copy of the Online Safety Policy and procedures and a scheduled opportunity to discuss them.
- That internet traffic can be monitored and traced to the individual user, and the importance of having high professional standards and always following current policies and procedures.
- Up-to-date and appropriate staff training in safe and responsible internet use, both professionally and personally.
- Requirement to read, understand and sign relevant Acceptable Use Agreements.
- For staff who manage filtering systems or monitor ICT use: that they will be supervised by the SLT and what the procedures for reporting issues are.
- How the school will promote online tools which staff should use for work purposes, especially with children, and the procedure staff should go through if there is a new tool they want to use.
- That their online conduct out of school could have an impact on their role and reputation in school. Civil, legal, or disciplinary action could be taken if they are found to bring the profession or institution into disrepute, or if something is felt to have undermined confidence in their professional abilities.

Volunteers will receive an online safety induction based on what staff receive but suitable for the role they have been asked to fulfil.

When we employ an Early Career Teacher (ECT replacing newly qualified teacher or NQT) or work with trainee teachers the OSL will ensure use of the [UKCIS Online Safety Audit Tool](#) or similar self-assessment with them to help them better understand their role in keeping children safe online and our policy and practice.

14.3 Enlisting Parents' Support

Internet use in pupils' homes is increasingly widespread. Unless parents are aware of the dangers, pupils may have unrestricted and unsupervised access to the Internet in the home. The school may be able to help parents plan appropriate, supervised use of the Internet at home and educate them about the risks.

To engage with parents and carers we will:

- draw attention to our Online Safety Policy and procedures in newsletters, and on the school website;
- encourage a partnership approach to online safety at home and at school which may include demonstration evenings, regular suggestions for safe home internet use, promoting educational online safety activities for families, or highlighting online safety issues at other attended events e.g. parent evenings and sports days;
- ask parents and carers to read and sign the school Acceptable Use Agreement for younger pupils and discuss its implications with their children and offer support to do this if required;
- provide information and guidance for families about on online safety in a variety of formats;
- provide advice on useful resources and websites, filtering systems and educational and leisure activities which include responsible use of the Internet;
- refer interested parents to organisations listed in the "[Online safety Links](#)";
- advise that they check whether their child's use of the Internet elsewhere in the community is covered by an appropriate Acceptable Use Agreement and if they understand the rules.

15. Complaints

The school will take all reasonable precautions to ensure online safety. However, owing to the international scale and linked nature of internet content, the availability of mobile technologies and speed of change, it is not possible to guarantee that unsuitable materials will never appear on a school computer or mobile device. Neither the school staff nor the Governing Body/Board of Directors can accept liability for material accessed, or any consequences of internet access.

- Complaints about the misuse of on-line systems will be dealt with under the school's Complaints procedure.
- Complaints about cyberbullying are dealt with in accordance with our Anti-bullying procedures which form part of our Expectations for Learning Behaviour Policy and procedures.
- Complaints related to child protection are dealt with in accordance with school Child Protection Policy and procedures.
- Any complaints about staff misuse will be referred to the Headteacher.
- All online safety complaints and incidents will be recorded by the school including any actions taken making use of the ['Response to online safety incidents or concerns'](#) flowchart.

Staff and pupils are given information about infringements in use and possible sanctions. Sanctions available include:

- interview/counselling by class teacher/Head of Year/Online Safety Coordinator/Headteacher;
- informing parents;
- removal of internet or computer access for a period, which could ultimately prevent access to files held on the system, including examination coursework);
- referral to the Police.

Appendices

Appendix 1 Staff Acceptable Use Policy

INFORMATION AND COMMUNICATION TECHNOLOGY: POLICY FOR ACCEPTABLE USAGE BY STAFF

Aim

The aim of this policy is to ensure that all staff employed to work at Trinity School understand what is acceptable and what is not when it comes to using the ICT network of the school.

Given that this is an increasingly important feature of the working life of most staff in a school, we need to make sure that everyone can use the system and its wider links safely and effectively, in ways that support individual work and sit within the values and procedures of the school.

Trinity School is committed to protecting the rights and privacy of individuals – students, staff, and others, in accordance with the Data Protection Act. This policy on Acceptable Usage should be read alongside the Data Protection Policy.

Purposes

For each area of likely use of ICT by staff of the school, this policy will aim to explain what acceptable use is, and what is not acceptable, and where any exceptions may lie.

These areas are:

- Passwords
- Uses of E-mail
- Uses of the Internet
- Use of telephone services, including landlines and all mobile devices
- Uses of all computers of the school, including desktops and laptops, and servers

The policy will also cover in brief the legal framework in which ICT usage operates, and it will seek to explain the monitoring of use of our ICT system by the school.

Compliance

This policy applies to all staff and students of Trinity School. Any breach of this policy, or of the Act itself, will be considered an offence and the school's disciplinary procedures could be invoked.

Passwords

The school is responsible for establishing and enforcing a password policy for its use of ICT in order to ensure that matters of privacy and acceptable uses are maintained, and to prevent the unacceptable.

The Headteacher is responsible for establishing and enforcing a password policy on our systems based on the level of security required. This responsibility is delegated in practice to the Deputy Headteacher (Curriculum) and to the manager of our ICT Services.

Passwords are assigned to individual users of ICT systems to maintain security and the data that they contain.

Acceptable uses:

- Using your own personal user account to carry out day to day work.
- Providing your password on request, to the Headteacher or a person nominated by them for, example if access was required should you be absent.
- Compliance with the password policy for our ICT network.
- Taking reasonable precautions to protect the password from disclosure and misuse.

Unacceptable uses:

- Installing or using any other encryption software without the written permission of the Headteacher or a person nominated by her/him.
- Requesting passwords of any other members of staff.
- Using a session via another member of staff's password.
- Sharing passwords with other users.

If a member of staff thinks that their username or password has been used without their permission, they must change the password and inform the Headteacher or ICT Network Manager as soon as practically possible.

The Headteacher will ensure that new members of staff/authorised users are issued with usernames and passwords.

When a member of staff/authorised user leaves their job, whether leaving the school or not, the Headteacher will ensure that all usernames and passwords for that employee are suspended or removed as necessary, through the IT Services Manager.

Uses of Email

Acceptable uses:

- Communication via e-mail in connection with your day to day work.
- Occasional personal use during breaks, lunch hours, before or after the working day in your own time.
- Management access to a member of staff's/authorised user's mail boxes, records etc., where there is a legitimate need authorised by the Headteacher.
- Receipt of unsolicited e-mails (spam) to a member of staff's/authorised users account, so long as they inform their line manager/Headteacher on receipt of such material.

It is vital that all communications with students should be via the systems approved by the school (Office 365 and School Comms etc.).

Unacceptable uses:

- Using e-mail for personal non-work-related communication during the working day, outside of break times.
- Forwarding chain e-mails.
- Subscribing to non-work-related mailing lists.
- Sending files with non-work-related attachments (e.g. video streams, audio streams or graphics).
- Sending e-mails or files which contain discriminatory, abusive, pornographic, obscene, illegal, offensive, potentially libelous or defamatory content.
- Sending any sensitive or confidential e-mails or files to unauthorised internal or external recipients.
- Sending e-mails from another user's account.
- Sharing personal e-mail addresses with students, or communicating with them to their private, non-school addresses, or e.g. Facebook accounts.
- Participation in forwarding or passing on messages or images designed to humiliate others, often known as 'cyber bullying'.

USE OF THE INTERNET

Acceptable uses:

- Accessing work related websites as additional tools to carry out your day to day duties.
- Accessing non-work-related websites for personal use during breaks, lunch hours, before or after the working day in your own time, with the exception of websites containing pornographic, offensive or obscene material.

Unacceptable uses:

- Accessing non-work-related websites for personal use during the working day, including accessing social networking sites.
- Making your personal internet access password available to others.
- Downloading copyright material without the owner's permission.

- Making repeated attempts to access websites which have been automatically blocked by the school.
- Downloading images, video or audio streams for non-work-related purposes.
- Downloading or deliberately accessing sites displaying pornographic offensive or obscene material.
- Accessing live internet feeds and leaving them open for example to collect news or sports results.
- Accessing the internet via another user's password.
- Revealing or publicising confidential information.
- Representing personal opinions as those of the school.
- Soliciting for personal gain or profit.
- Online gambling.
- Participation in forwarding or passing on messages or images designed to humiliate others, often known as 'cyber bullying'.
- Adding students as 'friends' on social networking sites.
- Attempting to bypass security systems.

Outside of the workplace:

The Internet provides members of staff/authorised users with access to worldwide information services, bringing new opportunities for communication. With the increasing popularity of social networking sites thought should be given when publishing information about yourself. Members of staff/authorised users should ask themselves if they would feel comfortable about an employer, colleague, student or parent viewing their content on a social networking site. Profiles should be made private and consideration given as to who is added as 'friends'. Consideration should also be given as to making 'tweets' available for public viewing and how employees would feel about an employer, colleague, student or parent viewing comments made on Twitter.

USE OF TELEPHONES (INCLUDING LANDLINE & MOBILE & DEVICES)

Acceptable uses:

- Personal calls, with the approval of a line manager/the Headteacher.
- Use of the telephone for work-related business.

Unacceptable uses:

- Allowing use of the telephone by unauthorised users.
- Personal calls made without the approval of a line manager/Headteacher.
- Personal use of mobile phones and Portable Electronic Devices during lesson times.
- Use of telephones that could bring the school into disrepute.
- Use of telephones to promote external private business.
- Use of telephones to premium rate numbers.
- Use of a hand-held telephone whilst driving.
- Participation in forwarding or passing on messages or images designed to humiliate others, often known as 'cyber bullying'.

USE OF ICT EQUIPMENT

Acceptable uses:

- Storing school data.
- Loading text, images, video or audio streams in connection with day to day work activities.
- Storing limited amounts of personal data (where agreed by the Headteacher).

Unacceptable uses:

- Loading unauthorised or untested software.
- Allowing unauthorised users to access laptops used away from school.
- Failure to keep laptops secure when used away from school.
- Storing confidential or personal data or information on removable media without adequate protection or encryption.
- Deliberate, reckless or negligent introduction of viruses.
- Storing personal material protected by copyright which has not been purchased.
- Loading files containing pornographic offensive or obscene material.
- Unauthorised use of Spyware.

THE LEGAL FRAMEWORK

Computer use in school is legally regulated. This includes the content of e-mail, or sites downloaded from the Internet. privacy issues, monitoring of communications and surveillance at work; and employment relations. The school may seek further legal advice, if appropriate.

The school does monitor emails and other Internet uses for profanity/inappropriate content. Members of staff are hereby advised of this monitoring.

Appendix 2 – Guidelines for Parents and carers

POLICY ON PARENTAL USE OF SOCIAL NETWORKING AND INTERNET SITES

Overview

Social networking sites such as Facebook and Twitter are now widely used and these types of media allow people to communicate in ways that were not previously possible. Unfortunately, such sites can be used inappropriately by some as a means of expressing negative or offensive views about schools and their staff. This document sets out this school's approach to parental use of such sites and sets out the procedures that will be followed and action that may be taken when it is considered that parents have used such facilities inappropriately. Where there is reference to "parent" in this document this also include carers, relatives or anyone associated with the school.

Objectives

The purpose of this policy is to:

- Encourage social networking sites to be used in a beneficial and positive way by parents
- Safeguard students, staff and anyone associated with the school from the negative effects of social networking site
- Safeguard the reputation of the school from unwarranted abuse on social networking sites
- Clarify what the school considers to be appropriate and inappropriate use of social networking sites by parents
- Set out the procedures the school will follow where it is considered that parents have inappropriately or unlawfully used social networking sites to the detriment of the school, staff, students or anyone else associated with the school
- Set out the action the school will consider taking if parents make inappropriate use of social networking sites

Appropriate use of social networking sites by parents

Social networking sites have potential to enhance the learning and achievement of students and enable parents to access information about the school and provide feedback efficiently and easily. In addition, the school recognises that many parents and other family members will have personal social networking accounts which they might use to discuss/share views about school issues with friends and acquaintances. As a guide, individuals should consider the following prior to posting any information on social networking sites about the school, staff, students or anyone else associated with the school:

- Is the social networking site the appropriate channel to raise concerns, give this feedback or express these views?
- Would a private and confidential discussion with someone in the school be more appropriate? If there are serious allegations being made/concerns being raised, social media or internet sites should not be used to name individuals and make abusive comments. Please contact the school to discuss any concerns you may have
- Are such comments likely to cause emotional or reputational harm which would not be justified, particularly if the school has not yet had a chance to investigate a complaint?
- The reputational impact that the posting of such material may have to the school, any detrimental harm that the school may suffer as a result of the posting and the impact that such a posting may have on students' learning.
- Trinity School will always work with parents to attempt to resolve issues. If parents are dissatisfied with our first response at any time the Complaints Policy is available on the website as are contact details for the Headteacher and the Chair of Governors.

Inappropriate use of social networking sites by parents

Although social networking sites may appear to be the quickest and easiest way to express frustrations or concerns about the school and those associated with it, it is rarely appropriate to do so. Other channels such as a private and confidential discussion with the Headteacher or member of the Governing Body, or using the school's formal complaints process are much better suited to this. The School considers the following examples to be inappropriate uses of social networking sites. (This list is non-exhaustive and intended to provide examples only):

- Naming children or posting any comments about children who attend Trinity School
- Making allegations about staff or anyone else connected with the school
- Making any posts that could be deemed to be cyber-bullying
- Making complaints about the school or staff at the school
- Making defamatory statements about the school or staff at the school
- Posting negative or offensive comments about staff or any other individual connected to the school
- Posting racist comments
- Posting comments which threaten violence

Parents should also ensure that their children are not using social networking and other internet sites in an inappropriate manner. It is expected that parents/carers explain to their children what is acceptable to post online. Parents/carers are also expected to monitor their children's online activity, including in relation to their use of social media. Please note that most social networking sites require the user to be at least 13 years old but some only allow access to those aged 13-18 with parental consent.

Procedure the school will follow if inappropriate use continues

The School will always try to deal with concerns raised by parents in a professional and appropriate manner and understands that parents may not always realise when they have used social networking sites inappropriately. Therefore, as a first step the school will usually discuss the matter with the parent to try and resolve it and to ask that the relevant information be removed from the social networking site in question. If the parent refuses to do this and continues to use social networking sites in a manner the school considers inappropriate, the school will consider taking the following action:

- Take legal advice and/or legal action where the information posted is defamatory in any way or if the circumstances warrant this
- Set out the school's concerns to you in writing, giving you a warning and requesting that the material in question is removed
- Contact the police where the school feels it appropriate – for example, if it considers a crime (such as harassment) has been committed or in cases where the posting has a racial element, is considered to be grossly obscene, grossly offensive or is threatening violence
- If the inappropriate comments have been made on a school website or online forum, the school may take action to block or restrict that individual's access to that website or forum
- Contact the host/provider of the social networking site to complain about the content of the site and ask for removal of the information
- Take other legal action against the individual

Appendix 3 Student Acceptable Use Agreement Form

The computer system is owned by the school. This Responsible Use policy helps to protect students, staff and the school by clearly stating what use of the computer resources is acceptable and what is not. This is a summary of the full school Acceptable Use policy.

- Irresponsible use will result in the loss of computer access to all school ICT resources.
- Network access must be made via the user's authorised account and password, which must not be given to another person. You will be responsible for any computer activity done on your password.
- School computer and internet use must be appropriate to your education.
- Copyright and intellectual property rights must be respected.
- E mail should be written carefully and politely, particularly as messages may be forwarded or printed to be seen by unexpected readers.
- Users are fully responsible for e mail they send and for contacts made.
- Personal contact information (e.g. phone numbers and addresses) must not be typed into web pages or e mail.
- Anonymous messages and chain letters are not permitted.
- The use of chat rooms and messaging services is not allowed.
- You are not allowed to download any programs or games from the internet. If in doubt you should check with the ICT Services Manager in Creighton building.
- The use of proxy sites is expressly forbidden.
- The school ICT systems including printers may not be used for personal purposes.
- The ICT system and system security must be respected
- No food or drink should be brought near any of the ICT resources

The school will exercise its right to monitor the use of the school computer systems, including access to web sites, the interception of e mail, and the deletion of inappropriate materials where it believes unauthorised use of the school system is or may be taking place.

I agree to abide by the conditions of the ICT Responsible Use Policy and understand the implications if I do not.
