Dear Parent/Carer

Re: School Meals Online Ordering - Fusion

The students have been using a paper slip based system to pre-order a selection of school lunches mainly sandwich choices since the introduction of the year group "bubbles". This has been beneficial for both students with less queuing time and efficiencies within the Catering Team.

The catering software system has recently changed and has an online pre-ordering option via an app. Students or parents/carers now have the option to order from the online menu the evening before school or by 7am on the day. Choices for the pre ordering service will predominately be sandwich choices. For those who do not order in advance, both hot and cold choices will be available during the lunch service to order at the counter giving students the choice about how they order their food and whether they queue or collect.

The purpose of this letter is to ask how you would like your child to engage with the new app, only one user can be linked to the app via a unique code the options are:

- To give permission for your child to download the Fusion Mobile app onto their mobile and use this to order themselves
- For you as parent/carer to download the app yourself and order food on your child's behalf
- Decide not to use the new app and for your child to make food choices at the counter during lunch service

Once all of the choices have been received the unique codes will be issued to either the parent/carer or the student. If the student has been given permission support will be available in school to download the app. The unique registration code will be sent to the parent/carers' that have opted to use the app on behalf of their child. Please complete this form by Monday 14 June 2021.
